

X1JET LX

Markoprint
PREMIUM PARTNER

HIGH QUALITY MADE IN GERMANY

The X1JET LX is a compact and powerful cartridge based thermal inkjet printer (TIJ). This unit can print up to 12.5 mm ($\approx 1/2$ ") and offers an array of ink types and colors for printing onto absorbent and non-absorbent materials.

The LX Class differs from its HP counterpart as it accommodates higher printing speeds, larger throw distances as well as more aggressive solvents such as MEK in the cartridges.

Four configuration options are available depending on the application requirements that allow for printing alphanumeric text, 1D & 2D barcodes, graphics, live date, time, & sequential numbers.

The table below shows the Print, Basic, Advanced & Pro upgrades and what each configuration provides.

This small system is an independently operating printhead that integrates seamlessly into new and existing production lines.

High resolution codes at fast speeds with excellent adhesion on plastic, glass, metal, as well as other porous and non-porous substrates.

Simultaneously print essential information while ensuring legibility with this high-resolution unit.

Performance data	* depending on config.
Max. print speed	up to 240 m/min*
Print resolution horizontal	50 to 900 dpi adjustable
Print resolution vertical	300 / 600 dpi*
Max. print height	12,5 mm
Technology	LX
Text field	yes
Counter	yes*
Time	yes*
Date field/ Date Offset	yes*
Logo	yes
Variable input	yes*
Action field	yes*
1D-Code / 2D-Code	yes*
Data transfer per USB-Stick	yes (USB C)
Ethernet	yes*
WiFi	optional
EIA232	yes
Password protection	yes*
Configurable in-and outputs	yes*

ADVANTAGES

- » Intuitive 3-button system with LED
- » Messages are created with the included Software
- » Store up to 9 messages on the machine
- » Maintenance free ink cartridges
- » Solvent and waterbased ink cartridges in multiple colors
- » Interface options- direct connection for encoder, sensor and status inputs and outputs
- » Integrated photocell for product detection
